

# D L NARAYANA

Front End Developer | JavaScript (ES6+) · React.js · Next.js · HTML5/CSS3 | B.Tech CSE, 2027 Batch

Visakhapatnam, India · +91 73001 87277 · [nvr0910@gmail.com](mailto:nvr0910@gmail.com)

[dln-portfolio.vercel.app](https://dln-portfolio.vercel.app) · [linkedin.com/in/dlnarayana](https://linkedin.com/in/dlnarayana) · [github.com/D-L-Narayana](https://github.com/D-L-Narayana)

## SUMMARY

Front-end developer (B.Tech CSE, 2027 batch) with 15+ live web apps in JavaScript (ES6+), React.js and Next.js – responsive, accessible, pixel-perfect UIs on REST APIs. Lighthouse wins (mobile 55 → 92, desktop 100), automated testing (Playwright, Jest) and solid DSA in C++/JavaScript; targeting the Front End Developer (Intern + FTE) role at JTG.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, C/C++, Python, SQL

**Front-End:** React.js (Hooks, Context API), Next.js (App Router, SSR/SSG), Redux, Responsive Web Design (Flexbox, CSS Grid, mobile-first), Semantic HTML, DOM Manipulation & Event Handling, Async JavaScript (Promises, async/await, Fetch API), Tailwind CSS, SASS/SCSS, Bootstrap, Material Design, Accessibility (WCAG, ARIA), Cross-Browser Compatibility

**Tools & Testing:** Git & GitHub, npm, Vite, Webpack/Babel, ESLint, Jest, React Testing Library, Playwright, Chrome DevTools, Lighthouse, Figma, Vercel, REST API integration, Supabase (PostgreSQL), Core Web Vitals, Agile/Scrum, Code Reviews

**CS Fundamentals:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

## EXPERIENCE

### Freelance Web Designer & Developer

Jan 2025 – Present

Self-employed

Remote / Visakhapatnam, India

- Delivered responsive, pixel-perfect websites for small-business clients end to end (Figma to HTML5/CSS3/JavaScript and React/Next.js builds on Vercel), lifting lead conversion by up to 30%; scoped work into milestones with estimates.
- Built a reusable component library (design tokens, buttons, cards, forms, navigation) mirrored in Figma and React + Tailwind CSS, cutting design-to-build time by ~35% and keeping every page visually consistent.
- Optimized assets (WebP/AVIF, compression, lazy loading) and ran cross-browser QA on Chrome, Firefox, Safari and Edge, taking client sites to Lighthouse Performance and Accessibility scores of 90+.

### Front-End Software Engineering Job Simulation – Skyscanner (Forage)

Sep 2026

Virtual work-experience program; certificate of completion

Remote

- Built a React “Flight Schedule” date-picker web app with Skyscanner’s open-source Backpack design system (BpkCalendar, BpkButton), following production component-library guidelines for consistent, reusable UI.
- Configured the React toolchain (Create React App, npm, webpack/Babel, SCSS), fixed dependency conflicts and wrote passing Jest + React Testing Library tests; code: [github.com/D-L-Narayana/skyscanner-flight-schedule](https://github.com/D-L-Narayana/skyscanner-flight-schedule).

## PROJECTS

### StayNest – Airbnb-style Travel Booking Web App

[github.com/D-L-Narayana/staynest](https://github.com/D-L-Narayana/staynest)

Next.js 16 (App Router) · React 19 · TypeScript · Tailwind CSS v4 · Supabase · REST APIs

[staynest-two.vercel.app](https://staynest-two.vercel.app)

- Architected 25+ reusable, typed React components (ListingCard, BookingWidget, FiltersModal, Gallery) across 6 routes – destination/guest/price search, wishlists, 100+ reviews, a Leaflet map and a booking flow with live price breakdown.
- Built 8 REST API routes (listings, booking, reviews, wishlist, host) with server-side date/guest validation, consumed via async/await + Fetch with optimistic updates; light/dark/system themes via CSS custom properties.

### ResumeForge – Resume Builder & ATS Scanner (Vanilla JavaScript)

[github.com/D-L-Narayana/resumeforge](https://github.com/D-L-Narayana/resumeforge)

HTML5 · CSS3 · Vanilla JavaScript (ES6 modules) · zero dependencies, no build step

[resumeforge-ruby-rho.vercel.app](https://resumeforge-ruby-rho.vercel.app)

- Built an 8-page, framework-free client-side app: live resume editor with 9 print-ready templates, real-time 8-check ATS scoring, JD keyword matcher, pdf.js scanner and one-click PDF export; semantic HTML, CSS design system, 3 themes.
- Structured logic as pure, DOM-free ES modules (ats.js, parse.js, match.js, salarylib.js) covered by Node unit tests plus a 15-check Playwright end-to-end suite across all pages – all passing on main.

### Personal Portfolio & Case-Study Site

[github.com/D-L-Narayana/dl-narayana-portfolio](https://github.com/D-L-Narayana/dl-narayana-portfolio)

Next.js 15 (static export) · TypeScript · Tailwind CSS v4 · Motion · WebGL · Playwright

[dln-portfolio.vercel.app](https://dln-portfolio.vercel.app)

- Raised mobile Lighthouse Performance 55 → 92 (desktop 100; TBT 1,810 → 100 ms) by moving the LCP animation to CSS keyframes, replacing ~70 JS animations with one IntersectionObserver and cutting HTML payload 283 → 45 KB.
- Built 43 reusable components across 9 routes – Cmd/Ctrl+K command palette with fuzzy search, WebGL hero with reduced-motion fallback, theme toggle – with WCAG AA contrast, skip links and focus rings (Accessibility 100).
- Wrote a 60-check Playwright E2E suite (every route, a11y, reduced motion) plus a link checker validating 2,295 internal references with 0 misses; zero console errors at 4 breakpoints.

**Also live:** CityHelp – civic issue-reporting app (Supabase Realtime, Leaflet map, Recharts): [cityhelp-sage.vercel.app](https://cityhelp-sage.vercel.app); AlgoViz – React sorting/pathfinding visualizer: [algoviz-lilac.vercel.app](https://algoviz-lilac.vercel.app).

## EDUCATION

### GITAM (Deemed to be University), Visakhapatnam

Jul 2023 – Apr 2027 (2027 Batch)

B.Tech, Computer Science & Engineering – CGPA 7.97 / 10

Coursework: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Software Engineering, AI

## ACHIEVEMENTS & ACTIVITIES

- Open source:** 20 public repos and 15+ deployed web apps (React, Next.js, vanilla JS) on GitHub, each with a live demo.
- Technical writing:** 5 engineering notes (e.g., in-browser ML with zero inference APIs) at [dln-portfolio.vercel.app/notes](https://dln-portfolio.vercel.app/notes).
- Design:** Shore Fest GITAM 2025 design team (posters, banners, social creatives); club event graphics since Oct 2024.
